Janus Rack

Server rack lock

The same smart knob as on your doors, now on your server racks too. Fits straight into the standard 25 × 150 mm cutout. Fully connected, to take access control to the next level.

FEATURES

Opens with the app
Local access from the JANUS app over Bluetooth, for users with a valid e-key.

Remote access
Operators open racks remotely through the gateway.

Door and handle sensors
Reports whether the cabinet door is closed and the lock is secured.

LED and buzzer
Audible confirmation of a successful opening.

Mechanical key override
A mechanical key opens the rack without the app.
